EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brett G. Corbly on Thursday, September 29, 2005.

The application has been amended as follows:

Claim 16. A collapsible fishing rod holder for use with a boat comprising:

an accessory support including generally opposed first and second supports and a transverse support ~~for~~ supporting at least one fishing rod receptacle having an aperture for receiving a fishing rod handle, a support region for supporting a fishing rod shaft, and a channel for adjustably attaching said at least one receptacle to said transverse support; and

a base including first and second generally opposed members, and at least one transverse member, said base defining a plane and including a brace positioned in said plane, said brace defining an adjustable aperture adapted for securing said base around a pedestal of a seat on said boat, wherein said brace includes a fastener adapted to engage said pedestal and said accessory support attaches to said base via at least one hinge for movement from a collapsed position to an operational position and said first and second members extend beyond a point of intersection of said accessory support with said base, and said first and second generally opposed members, and said at least

one transverse member substantially contacts a floor of said boat when said collapsible fishing rod holder is in said operational position.

Claim 18, line 3, replaced "member" with --members--.

Claim 20, line 2, inserted --at least one-- before "fishing rod receptacle".

Claim 21. A fishing accessory apparatus, comprising:

- a base;

- a brace defining an adjustable aperture and including a fastener adapted to engage a structure auxiliary to said fishing accessory apparatus that becomes positioned within said aperture, said brace positioned substantially co-planar with a plane defined by said base; and

- a plurality of accessory stations, each including a ~~at least one~~ fishing rod receptacle including an aperture for receiving a fishing rod handle, a support region for supporting a fishing rod shaft, a channel extending substantially through a thickness of said fishing rod receptacle, and at least one adjustable fastener attaching said receptacle to a transverse support positioned on an accessory support,

- wherein said accessory support collapsibly attaches to said base for movement of said accessory support from a collapsed position to an operational position substantially perpendicular to said base.

Art Unit: 3643

Claim 23, line 1, inserted --wherein said brace-- before "further" and replaced "comprising" with --comprises--

Claim 25. The fishing accessory apparatus of claim 21, wherein said plurality of accessory stations comprise said a plurality of fishing rod receptacles positioned atop said a transverse support on ~~of~~ said accessory support.

Claim 30. A fishing accessory apparatus, comprising:

- a base defining a perimeter;

- a brace defining an adjustable aperture and including a fastener adapted to engage a structure auxiliary to said fishing accessory apparatus that becomes positioned within said aperture, said brace positioned within said perimeter;

- a plurality of accessory stations, each including a ~~at least one~~ fishing rod receptacle including an aperture for receiving a fishing rod handle, a support region for supporting a fishing rod shaft, a channel extending substantially through a thickness of said fishing rod receptacle, and at least one adjustable fastener attaching said receptacle to a transverse support positioned on an accessory support;

- wherein said accessory support collapsibly attaches to said base for movement of said accessory support from a collapsed position to an operational position substantially perpendicular to said base.

Art Unit: 3643

Claim 31. The fishing accessory apparatus of claim 30, wherein said plurality of accessory stations comprise said a plurality of fishing rod receptacles positioned atop said a transverse support on of said accessory support.

Claim 37, line 3, inserted --said-- before "substantially".
